INSIGHTS & RECOMMENDATIONS

Key Insights

The highest-performing TV channel generated the largest share of total views. Viewer engagement peaks during the Evening time period.

Saturday records the highest total watch time.

The leading age group contributes the largest share of viewership.

Certain regions consistently outperform others in viewer engagement.

Strategic Recommendations

Invest more in high-performing TV channels.

Schedule premium content during peak viewing periods.

Target the highest-engagement age groups with personalised marketing. Increase campaigns in high-performing regions while developing strategies for underperforming regions.

Replicate successful content strategies from high-engagement channels.
